PACKAGING MATERIAL

1) New Drum (STEEL) **

1) Quantity verification by Store personnel

Quantity received : CheckedQty

Attachments : Attachments

Verifier : Verifier

CC : CC

Checked By : CheckedBy

Date : CheckedDate

STORE Approval

Approved By : AppByST

Rejected By

Date : AppDateST

Remark : AppRemST

appST

SECTION B (Joint quantity, brand verification and sampling at unloading site)

2) Product Brand/ Manufacturing verification by user

2) Marking verification by user

Checked By : AppByProd

Date : AppByProdDate

Remark : AppRemark

appPD1

SECTION B (To be filled by QC)

1) SAMPLING

Top seal intact : TopSeal

Drain valve seal intact : DrainValve

Top main hole sample : TopMainHole

2) TESTING

1) Analysis Result

pH	: pH	pHAcc
Bulk density	: Density	DensityAcc
Moisture	: Moisture	
Temperature	: Temp	TempAcc
Concentration	: Concentration	ConcAcc

Testing & Released to unload by,

Name : SecBName

Date : SecBDate

SECTION B (To be filled by QC)

Material sampling by Laboratory personnel.

Number of sample : Sample

Assay Result : AssayResult

Sampled By : SampledBy / AppByLab

Date : AppByLabDate

Foreign Particles - Drums 1 D1

Foreign Particles - Drums 2 D2

Foreign Particles - Drums 3 D3

QC Approval

2) Raw Material COA meeting specification : MeetingSpec

Material1 Meeting

Reason of rejection : **ReasonRej**

Approved By : AppByQC

Date : AppDateQC

** Applicable for Lab inspection oly

Remark : For Store Inspection Method, Refer To QP-MTL-201/RFS

SECTION C (Joint quantity, brand verification and sampling at unloading site)

2) Product Brand/ Manufacturing verification by user

Checked By : AppByProd2

Date : AppByProdDate2

Remark : AppRemark2

appPD2

SECTION C (For Production Acknowledgement)

ProdAcc

If reject state reason : RejectReason

Authorised by : ProdAppName

Date : ProdAppDate

SECTION D (To be filled by Store Personnel)

S/No.	Check List Before Discharge	YES/ NO
1	Vehicle weigh in.	YN_1
2	Vehicle parked properly at designated area.	YN_2
3	Driver's PPE	YN_3
	a) Hardhat/ Helmet	YN_4
	b) Goggles	YN_5
	c) Rubber boots	YN_6
	d) Face Shield	YN_7
	e) Apron/Chemical Suit	YN_8
	f) Rubber Hand Gloves	YN_9
4	Connection of Flexible hose from tanker to inlet valve.	YN_10
5	Condition of Flexible hose.	YN_11
6	Inlet valve open before discharge by Store personnel	YN_12
7	Inlet valve closed after discharge by Store personnel	YN_13

8	Collect residual caustic after complete discharge into container provided.	YN_14
9	While unloading driver need to be at a distance of 3 meters from the tanker	YN_15
10	Discharge Tank confirmation.	YN_16
