5. Workflow and Routing

Attribute	Value	Confidence
Approval Required	Yes - inferred from PDF workflow/routing terms	Inferred
Workflow Evidence	status (12), review (7), verified (5), reviewed (4), hod (3), currentaction (2), approval (1), rejected (1)	Parsed from PDF text
CurrentAction Field	CA/CurrentAction candidate if present in source evidence	Needs Human Confirmation
State Values	Unknown	Needs Human Confirmation

6. SharePoint Design Recommendation

Parent list: `MainDB_MTN` FormCode: `FAILANALREPO` Child-list recommendation: `MainDB_MTN_Ext_FAILANALREPO_Rows` candidate for repeating row fields

Use the single-main-list pattern from DEC-2026-001. Parsed fields are evidence candidates only; final SharePoint internal names and choices require confirmation against Domino XML/DXL or business review.

7. Power Apps Build Specification

Screen/Component	Requirement	Confidence
List	Filter by site/owner/FormCode and status	Inferred
New/Edit	Render parsed PDF fields grouped by inferred sections	Inferred
Detail	Read-only view with audit/workflow metadata	Inferred
Approval Actions	Show only if workflow state confirms approval is required	Needs Human Confirmation
Child Rows	Use editable gallery only if child-list recommendation is confirmed	Needs Human Confirmation

8. Human Confirmation Questions

#	Question	Severity
MASTER-196-01	Confirm the matched PDF evidence belongs to this Domino app/form.	Medium
MASTER-196-02	Confirm required workflow states, approver roles, and CurrentAction values.	High
MASTER-196-03	Confirm whether repeating rows should be child lists or fixed extension columns.	Medium
